

The NG Tactical Growth Portfolio aims to exceed the performance of the Global 60/40 benchmark by allocating across a concentrated but multi-asset basket of ETFs, with exposures adjusted systematically as macro conditions change.

Its systematic, rules-based framework adapts exposures as conditions change, prioritizing drawdown reduction while still positioning for upside.

Actively Managed

A multi-asset, hedge-fund style systematic framework that shifts across asset classes, such as equities, bonds, and commodities, by identifying which investment styles are positioned to lead next.

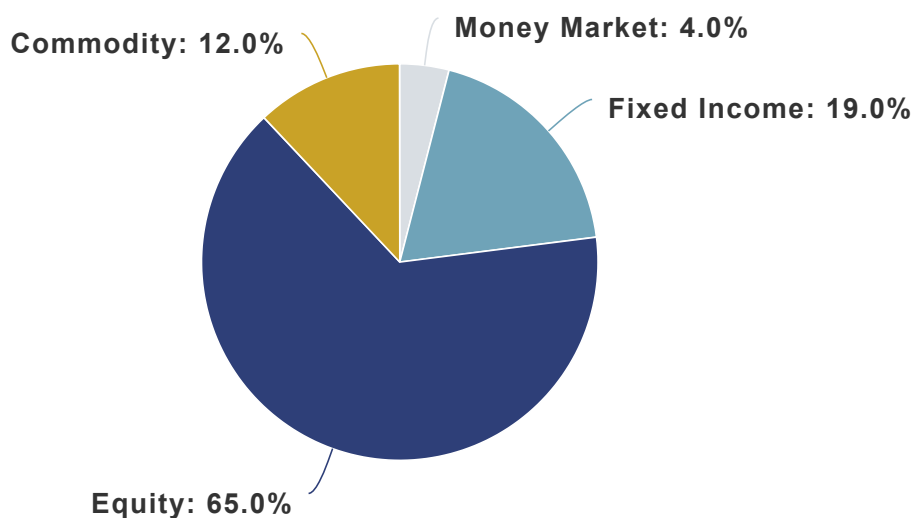

Data-Driven

Designed for all market environments, combining deep economic insight with rigorous quantitative analysis to deliver a disciplined, data-driven approach. Implemented through transparent, liquid ETFs.

Risk Aware

Built as an 'All Weather' strategy, allocating to the most suitable assets and market exposures with a strong emphasis on discipline and drawdown reduction. Structured to serve as a long-term core holding.
